

Jon Kelly, Senior Mechanical Project Engineer Diamond Light Source

Jon Kelly completed his PhD designing ion sources for Secondary Ion Mass Spectrometry (SIMS) in 2002. He then completed a 2 year postdoc contract to design a combined SIMS and Medium Energy Ion Scattering (MEIS) instrument. In 2004 he joined Instrument Design Technology Ltd. As an engineer designing, building, testing and installing Synchrotron Instrumentation. In 2010 he joined The Diamond Light Source Synchrotron Beamline Engineering Group. Since then, he has been the Senior Engineer on many projects from single instruments such as Double Crystal Monochromators to whole Beamlines.
